SURFACE AND 3-MANIFOLDS

Hyungryul Baik
Department of Mathematical Sciences, KAIST

ABSTRACT:

How should we understand surfaces or 3-manifolds? One reasonable thing to do is to use even lower-dimensional objects to probe the inside of the space you want to understand. We will discuss a few explicit examples of this approach and see what we can do with them.

4 – 5pm, Wednesday, October 19, 2022
