University of Brussels, Belgium		06/1995	Surgery Internship
University of Illinois, Chicago		06/1999	Internal Medicine

A. Personal Statement

I am a member of the Clinical Investigations and Precision Therapeutics (CIPT) Program at the Rutgers Cancer Institute of New Jersey. The overall goals of the clinical investigations and Precision Therapeutics (CIPT) Program are to 1) translate outstanding science across the Cancer Center into early phase trials, 2) develop novel diagnostic, prevention and therapeutic strategies; and 3) promote bidirectional translation from bench to bedside and back. I am physician offering cutting edge minimally invasive management options for patients suffering from biliary and pancreatic disease. My research is focused on interventional endoscopy, to diagnose and treat biliary and pancreatic diseases. My group and I have successfully treated countless pancreatic collections and pioneer procedures that have had a major impact on patient management. He is also teaching those techniques across the world globally.
