

Cancer Prevention & Outcomes Data Support Shared Resource

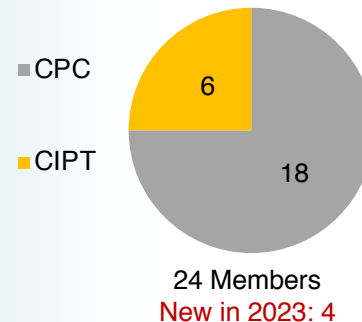

CPODS Aims (*New Shared Resource*)

- Support developing and implementing population-science research relevant to catchment area
- Enhance impact of the Cancer Prevention and Control research program
- Provide automation of participant recruitment, tracking, data collection, and management
- Improve diversity in research by assisting catchment area studies in health disparities
- Facilitate inter-program and intra-program collaborations

Scientific examples to be shown

- **R01CA171666; R01CA264548**, mySmartSkin Trial: Facilitating Skin Self-Examination and Sun Protection among Melanoma Survivors
- **R01CA237318** (Schildkraut (Emory University) PI, **Bandera NJ site PI**) African American Cancer Epidemiology Study: A multi-site study evaluating multi-level risk factors for ovarian cancer in African American women
- **R01CA221854** Facebook Intervention for Young Onset Melanoma Patients and Their Family
- **R01HL158850** TELEhealth Shared decision-making Coaching in Primary Care

Services, Innovation & Growth

CPODS supports data collection and management of diverse research projects, including epidemiologic studies, randomized controlled trials of behavioral, psychosocial, or other interventions, and cross-sectional surveys and qualitative studies.

Services

- Consultation, Education, and Training
- State-of-the-Art Customized Automation
 - Sophisticated workflow engine for complex intervention studies
 - Participant Screening, Recruitment, Enrollment & Monitoring
 - Flexible Data Capture
 - Project Management
- Survey Data Collection and Management
- Qualitative Data Collection, Management, and Analysis
- Facilitation of COE research relevant to Catchment Area

Software

- DATSTAT Connect
- REDCap
- Qualtrics
- SNAP Scanning
- ATLAS.ti

Growth

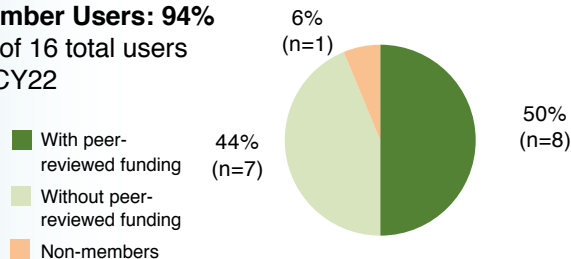

Cancer Prevention & Outcomes Data Support Shared Resource

Utilization & Management

Member Users: 94%
15 of 16 total users in CY22

Member Usage: 95%
893 of 943 hours in CY22

No CCSG Support to date

Sources of Support

FY24 Chargeback target: 30%

Satisfaction Survey for CY22 services

Participated: 13 of 15 members (87%)

Organization & Governance

CPODS SR

2.4 FTE

SRACs

- Advisory Committee meets annually
- Discusses operational and scientific progress
- SRM supports organization

SRM

- SR Faculty Directors report to the ADSR
- SRM tracks and supports SRAC recommendations, productivity, service development, outreach

CINJ Director

- RLC
- Finance & Admin
- EAB
