

# Center for Dermal Research

## Innovations in Dermatological Sciences Conference 2024

### **Dr. Abu Badruddoza**

Dr. Badruddoza is currently a Senior Principal Scientist at Pfizer Drug Product Design organization providing end-to-end support to topical and solid oral dosage drug product design and process development. He obtained his PhD from National University of Singapore (NUS) in chemical engineering. He then carried out postdoctoral research at Temple University and Massachusetts Institute of Technology (MIT). Prior joining to Pfizer, Dr. Badruddoza worked at the Virginia Commonwealth University (VCU) as a Research Assistant Professor and at TCG GreenChem as Senior Scientist. His research interests focus on complex fluids, particle engineering and drug delivery, and he has published more than 35 peer-reviewed journal papers in these areas.
