Innovations in Dermatological Sciences Conference 2024

Dr. Ofer Toledano

Dr. Ofer Toledano has served as Sol-Gel's vice president of research and development since 2004. Epsolay® and Twyneo®, Sol-Gel's commercial drugs, using a unique microencapsulation technology, were developed by Dr. Toledano.

Prior to joining Sol-Gel, Dr. Toledano served as manager of the formulation department at ADAMA Agricultural Solutions Ltd. (formerly known as Makhteshim Agan Industries Ltd.), an Israeli manufacturer and distributor of crop protection products from 1998 until 2004.

Dr. Toledano holds a Ph.D. in chemistry from The Hebrew University of Jerusalem, Israel.
