

Center for Dermal Research Innovations in Dermatological Sciences Conference 2025 Meet the Speakers

Dr. Vinay Bhardwaj
Session Speaker

Dr. Vinay Bhardwaj is currently Scientific Director at SGS North America, Clinical Research -Cosmetic and Personal Care. Vinay earned his M.S. in Biotechnology from India and a Ph.D. in Biomedical Engineering from USA. After completing his postdoctoral trainings at Western Carolina University – Forensic Science and Rutgers – Biomedical Engineering, Vinay worked at Kaligia Biosciences in Florida to build portable Raman spectroscopy device and process as non-invasive alternative to prick-test for diabetes testing. After a short stint of adjunct professor of Biomedical Engineering at The College of New Jersey, Vinay joined research and innovation at Global R&D campus of Colgate-Palmolive Company, where he established internal capabilities to promote skin health research developing in-silico, in-vitro and clinical methods. Vinay has authored several peer-reviewed research articles, invited editorials and a book. He has been issued two patents, and a few pending decisions. His innovations have been translated to a couple champion skin care products on market.
