

RESEARCH STUDY RECRUITING STUDENTS IN A POST-SECONDARY CAREER & TECHNICAL EDUCATION (VOCATIONAL) PROGRAM

We are looking for:

- Students enrolled in a post-secondary Career and Technical Education (CTE) program at a community college, VoTech school, or trade school in the United States.
- Students have at least two thirds of CTE program left to complete at the time of entering this study.
- Students must also identify as having a mental health condition, such as depression, anxiety disorder, bipolar disorder, etc.

Eligible students will receive Supported Education services from the Rutgers study team including time management, requesting accommodations, and CTE apprenticeship/job search skills for up to 18 months. Students can continue with their existing school counseling services.

There is also a \$125 payment for participating in the study.

If you or anyone you know qualifies for this study, please call or text (856) 463-0525.
