

RU REPRO PRESENTS

RU REPRO SEMINAR SERIES

This series is organized by Dr. Karen Schindler

FALL 2023

**ALTERNATING FRIDAYS • 2:00 P.M.- 4 P.M.
LIFE SCIENCES BUILDING AUDITORIUM**

Join the new RU Repro consortium for a variety of seminars on the genetic underpinnings of reproduction, spanning male and female gametogenesis, meiosis, and fertility. Model systems range from mouse, to clinical studies, to *C. elegans*. Once a month, seminars will be followed by themed social activities and snacks.

See the next page for the fall 2023 schedule!

Seminar Schedule
