

Howard Wilcox Haggard (1891 – 1959)

Bibliography by Nicholas Allred for the Center of Alcohol Studies Library, Rutgers, The
State University of New Jersey

Note: entries are organized chronologically by year, then alphabetically by primary author

Kirkham, W. B., & Haggard, H. W. (1915). A comparative study of the shoulder region of the normal and of a wingless fowl. *The Anatomical Record*, 9(2), 159-180.

Kirkham, W. B., & Haggard, H. W. (1916). The anatomy of a three-legged kitten. *The Anatomical Record*, 10(8), 537-542.

Henderson, Y., Prince, A. L., & Haggard, H. W. (1917). Observations on surgical shock: A preliminary note. *Journal of the American Medical Association*, 69(12), 965-966.

Haggard, H. W. (1918). Low levels of alkaline reserve under surgical conditions: Its effect and treatment. *Transactions of Section on Surgery of the American Medical Association*, 69, 139-150.

Henderson, Y., & Haggard, H. W. (1918). The circulation in man in the head-down position, and a method for measuring the venous return to the heart. *The Journal of Pharmacology and Experimental Therapeutics*, 11(3), 189-201.

Henderson, Y., & Haggard, H. W. (1918). Respiratory regulation of the CO₂ capacity of the blood. I: High levels of CO₂ and alkali. *The Journal of Biological Chemistry*, 33(2), 333-344.

Henderson, Y., & Haggard, H. W. (1918). Respiratory regulation of the CO₂ capacity of the blood. II: Low levels of CO₂ and alkali induced by ether. Their prevention and reversal. *The Journal of Biological Chemistry*, 33(2), 345-353.

Henderson, Y., & Haggard, H. W. (1918). Respiratory regulation of the CO₂ capacity of the blood. III: The effects of excessive pulmonary ventilation. *The Journal of Biological Chemistry*, 33(2), 355-363.

Henderson, Y., & Haggard, H. W. (1918). Respiratory regulation of the CO₂ capacity of the blood. IV: The sequence of trauma, excessive breathing, reduced CO₂ capacity, and shock. *The Journal of Biological Chemistry*, 33(2), 365-371.

Henderson, Y., Prince, A. L., & Haggard, H. W. (1918). The influence of forced breathing upon the circulation. *The Journal of Pharmacology and Experimental Therapeutics*, 11(3), 203-207.

Haggard, H. W., Henderson, Y., Beatty, H. H., Detwiler, S. R., & Taliaferro, W. H. (1919). Gas tensions of the abdominal cavity, with some evidence on the diffusion of gases within the body. *The Journal of Biological Chemistry*, 38(1), 71-79.

Haggard, H. W., Henderson, Y., Beatty, H. H., & Taliaferro, W. H. (1919). Hemato-respiratory functions. *The Journal of Biological Chemistry*, 39(1), 163-201.

Haggard, H. W. (1920). The anesthetic and convulsant effects of gasoline vapor. *The Journal of Pharmacology and Experimental Therapeutics*, 16(5), 401-404.

Haggard, H. W. (1920). The elimination of carbon monoxide and a method of acceleration. *Proceedings of the Society for Experimental Biology and Medicine*, 17(8), 205-206.

Haggard, H. W. (1920). Hemato-respiratory functions. II: The Henderson-Morriss method for determining the carbon dioxide in plasma and in whole blood. *The Journal of Biological Chemistry*, 42(2), 237-44.

Haggard, H. W. (1920). Hemato-respiratory functions. VI: The alteration of the CO₂ ratio (H₂CO₃:NaHCO₃) in the blood during elevation of body temperature. *The Journal of Biological Chemistry*, 44(1), 131-136.

Haggard, H. W., & Henderson, Y. (1920). Hemato-respiratory functions. III: The fallacy of asphyxial acidosis. *The Journal of Biological Chemistry*, 43(1), 3-13.

Haggard, H. W., & Henderson, Y. (1920). Hemato-respiratory functions: IV. How oxygen deficiency lowers the blood alkali. *The Journal of Biological Chemistry*, 43(1), 15-27.

Haggard, H. W., & Henderson, Y. (1920). Hemato-respiratory functions. VII: The reversible alterations of the H₂CO₃:NaHCO₃ equilibrium in blood and plasma under variations in CO₂ tension and their mechanism. *The Journal of Biological Chemistry*, 45(1), 189-198.

Haggard, H. W., & Henderson, Y. (1920). Hemato-respiratory functions. VIII: The degree of saturation of the corpuscles with HCl as a condition underlying the amount of alkali called into use in the plasma. *The Journal of Biological Chemistry*, 45(1), 199-207.

Haggard, H. W., & Henderson, Y. (1920). Hemato-respiratory functions. IX: An irreversible alteration of the $\text{H}_2\text{CO}_3:\text{NaHCO}_3$ equilibrium of blood, induced by temporary exposure to a low tension of CO_2 . *The Journal of Biological Chemistry*, 45(1), 209-214.

Haggard, H. W., & Henderson, Y. (1920). Hemato-respiratory functions. X: The variability of reciprocal action of oxygen and CO_2 in blood. *The Journal of Biological Chemistry*, 45(1), 215-217.

Haggard, H. W., & Henderson, Y. (1920). Hemato-respiratory functions. XI: The relation of hemolysis to alteration of the $\text{H}_2\text{CO}_3:\text{NaHCO}_3$ equilibrium. *The Journal of Biological Chemistry*, 45(1), 219-221.

Henderson, Y., & Haggard, H.W. (1920). Diseases due to variations in atmospheric pressure: Caisson disease and mountain sickness. In W.W. Palmer (ed.), *Nelson's Loose-Leaf Medicine* (II.672-676). New York: Thomas Nelson & Sons.

Henderson, Y., & Haggard, H. W. (1920). The elimination of carbon monoxide from the blood after a dangerous degree of asphyxiation, and a therapy for accelerating the elimination. *The Journal of Pharmacology and Experimental Therapeutics*, 16(1), 11-20.

Henderson, Y., & Haggard, H. W. (1920). The influence of oxygen in expelling CO_2 from the blood. *Proceedings of the Society for Experimental Biology and Medicine*, 17(8), 206-207.

Henderson, Y., Haggard, H. W., & Coburn, R. C. (1920). The therapeutic use of carbon dioxide after anesthesia and operation. *The Journal of the American Medical Association*, (74), 783-786.

Henderson, Y., Haggard, H. W., & Coburn, R. C. (1921). The acapnia theory, now. *The Journal of the American Medical Association*, 77(6), 424-427.

Address before the Section on Miscellaneous Topics at the Seventy-Second Annual Session of the American Medical Association, Boston, June, 1921

Haggard, H. W., & Charlton, T. J. (1921). The fate of sulfides in the blood. *The Journal of Biological Chemistry*, 49(2), 519-529.

Haggard, H. W., & Henderson, Y. (1921). Hemato-respiratory functions. XII: Respiration and blood alkali during carbon monoxide asphyxia. *The Journal of Biological Chemistry*, 47(2), 421-432.

Haggard, H. W., & Henderson, Y. (1921). The treatment of carbon monoxid poisoning. *The Journal of the American Medical Association*, 77(14), 1065-1068.

Address before the Section on Pharmacology and Therapeutics at the Seventy-Second Annual Session of the American Medical Association, Boston, June, 1921.

Henderson, Y., Haggard, H. W., Teague, M. C., Prince, A. L., & Wunderlich, R. M. (1921). Physiological effects of automobile exhaust gas and standards of ventilation for brief exposures. *The Journal of Industrial Hygiene*, 3(3 & 4), 79-92, 137-142.

Haggard, H. W. (1922). Studies in carbon monoxide asphyxia. II: The growth of neuroblast in the presence of carbon monoxide: A demonstration that this gas has no direct toxic action upon nervous tissue. *The American Journal of Physiology*, 60(2), 244-249.

Haggard, H. W., Henderson, Y., & Charlton, T. J. (1922). The influence of hydrogen sulphide upon respiration. *The American Journal of Physiology*, 61(2), 289-297.

Henderson, Y., & Haggard, H. W. (1922). The elimination of industrial organic odors. *Journal of Industrial and Engineering Chemistry*, 14(6), 548-551.

Henderson, Y., & Haggard, H. W. (1922). Hemorrhage as a form of asphyxia. *The Journal of the American Medical Association*, 78(10), 697-704.

Henderson, Y., & Haggard, H. W. (1922). The physiological principles governing ventilation when the air is contaminated with carbon monoxide. *Journal of Industrial and Engineering Chemistry*, 14(3), 229-235.

Haggard, H. W. (1923). An accurate method of determining small amounts of ethyl ether in air, blood, and other fluids, together with a determination of the coefficient of distribution of ether between air and blood at various temperatures. *The Journal of Biological Chemistry*, 55(2), 131-143.

Henderson, Y., & Haggard, H. W. (1923). Health hazard from automobile exhaust gas in city streets, garages, and repair shops: The vertical exhaust as a practical measure of amelioration. *The Journal of the American Medical Association*, 81(5), 385-391.

Abridged version of a report to the New York Academy of Medicine

Henderson, Y., & Haggard, H. W. (1923). Über die Bestimmung des schädlichen Raums der Atmungswege mit Hilfe von Ätherdämpfen [On the determination of irritation zones of the

respiratory tract with help of ether gas]. *Hoppe-Seyler's Zeitschrift Fur Physiologische Chemie*, (130), 126-135.

Haggard, H. W. (1924). The absorption, distribution, and elimination of ethyl ether. I: The amount of ether absorbed in relation to the concentration inhaled and its fate in the body. *The Journal of Biological Chemistry*, 59(3), 737-751.

Haggard, H. W. (1924). The absorption, distribution, and elimination of ethyl ether. II: Analysis of the mechanism of absorption and elimination of such a gas or vapor as ethyl ether. *The Journal of Biological Chemistry*, 59(3), 753-770.

Haggard, H. W. (1924). The absorption, distribution, and elimination of ethyl ether. III: The relation of the concentration of ether, or any similar volatile substance, in the central nervous system to the concentration in the arterial blood, and the buffer action of the body. *The Journal of Biological Chemistry*, 59(3), 771-781.

Haggard, H. W. (1924). The absorption, distribution, and elimination of ethyl ether. IV: The anesthetic tension of ether and the physiological response to various concentrations. *The Journal of Biological Chemistry*, 59(3), 783-793.

Haggard, H. W. (1924). The absorption, distribution, and elimination of ethyl ether. V: The importance of the volume of breathing during the induction and termination of ether anesthesia. *The Journal of Biological Chemistry*, 59(3), 795-802.

Haggard, H. W. (1924). Action of irritant gases upon the respiratory tract. *The Journal of Industrial Hygiene*, 5(10), 390-398.

Haggard, H. W. (1925). The toxicology of hydrogen sulphide. *The Journal of Industrial Hygiene*, 7(3), 113-121.

Henderson, Y., & Haggard, H. W. (1925). The circulation and its measurement. *The American Journal of Physiology*, 73(1), 193-253.

Henderson, Y., & Haggard, H. W. (1925). The maximum of human power and its fuel: From observations on the Yale University crew, winner of the Olympic championship, Paris, 1924. *The American Journal of Physiology*, 72(2), 264-284.

Haggard, H. W. (1926). The absorption, distribution, and elimination of anesthetics. *Anesthesia and Analgesia*, V(1), 1-7.

Haggard, H. W. (1926). Fatigue from a new point of view: Physiological maintenance of the human machine in industry. *Manufacturing Industries*, 11(5), 363-366.

Haggard, H. W. (1927). *The science of health and disease: A textbook of physiology and hygiene*. New York: Harper & Brothers.

Haggard, H. W. (1934). The function of the general practitioner in public health work. *New England Journal of Medicine*, 210(11), 584-587.

Read at the Annual Meeting of the Vermont State Medical Society in Barre, VT, Oct. 5th and 6th, 1933

Haggard, H. W. (1934). *Old eyes in young people*. New York: Westinghouse Lamp Co.

Haggard, H. W. (1934). Progress of dentistry. *Journal of the American Dental Association (JADA)*, 21(2), 218-228.

Read at the Seventy-Fifth Annual Session of the American Dental Association in conjunction with the Chicago Centennial Dental Congress, Aug. 8, 1933

Haggard, H. W., & Greenberg, L. A. (1934). The effects of cigarette smoking upon the blood sugar. *Science, n.s.* 79(2042), 165-166.

Haggard, H. W., & Greenberg, L. A. (1934). The effects of cigarette smoking upon the blood sugar. *Science, n.s.* 79(2047), 274.

Letter to the editor

Haggard, H. W., & Greenberg, L. A. (1934). Studies in the absorption, distribution, and elimination of ethyl alcohol. I: The quantitative determination of ethyl alcohol in air, blood, and urine by means of iodine pentoxide. *The Journal of Pharmacology and Experimental Therapeutics*, 52(2), 137-149.

Haggard, H. W., & Greenberg, L. A. (1934). Studies in the absorption, distribution, and elimination of ethyl alcohol. II: The excretion of alcohol in urine and expired air; and the distribution of alcohol between air and water, blood, and urine. *The Journal of Pharmacology and Experimental Therapeutics*, 52(2), 150-166.

Haggard, H. W., & Greenberg, L. A. (1934). Studies in the absorption, distribution, and elimination of ethyl alcohol. III: Rate of oxidation of alcohol in the body. *The Journal of Pharmacology and Experimental Therapeutics*, 52(2), 167-178.

Haggard, H. W. (1935). How to present child health to your community. *Public Health Nursing*, (October)

Excerpts from an address delivered at Regional Institute on Maternity and Child Health, June 12, 1935 in New York City

Haggard, H. W., & Greenberg, L. A. (1935). Breath odors from alliaceous substances: Cause and remedy. *The Journal of the American Medical Association*, 104(24), 2160-2163.

Haggard, H. W., & Greenberg, L. A. (1935). *Diet and physical efficiency: The influence of frequency of meals upon physical efficiency and industrial productivity*. New Haven: Yale University Press.

Reprinted: London: Oxford University Press (1935).

Reprinted: New York: Arno (1977).

Reprinted: New York: Arno (1979).

Conrad, A. G., Haggard, H. W., & Teare, B. R. (1936). Electrical studies of living tissue. *Electrical Engineering*, 55(7), 768-772.

Haggard, H. W. (1936). Diet and physical efficiency. *Vital Speeches of the Day*, 3(2), 41-44.

Delivered before Convention of International Milk Dealers, Atlantic City, October 14, 1936

Haggard, H. W. (1936). Eliminating odor of garlic. *Journal of the American Medical Association*, 107(11), 895.

Letter to the editor

Haggard, H. W. (1936). The first published attack on Perkinism: An anonymous eighteenth century poetical satire. *The Yale Journal of Biology and Medicine*, 9(2), 137-153.

Haggard, H. W. (1936). Medicine in the days of the grand monarch. In I. Galdston (Ed.), *Medicine and mankind: Lectures to the laity delivered at the New York Academy of Medicine* (pp. 46-78). New York: D. Appleton-Century Co., Inc.

Haggard, H. W. (1936). The school child and his health. *Vital Speeches of the Day*, 3(4), 115-118.

Address delivered to Public Education Association, Nov. 17, 1936

Haggard, H. W. (1936). Work and fatigue: The maintenance of physiological efficiency in industry. *Mechanical Engineering*, (May), 296-301.

Haggard, H. W., & Fry, C. C. (1936). *The anatomy of personality*. New York: Harper and Brothers.

Republished with Modifications: *The anatomy of personality* (2nd). New York: Harper and Brothers (1936).

Haggard, H. W. (1937). Social aspects of medicine. *The Journal of the Medical Society of New Jersey*, 34(6), 377-383.

Delivered before the General Public Health Section at the 171st Annual Meeting of the Medical Society of New Jersey in Atlantic City, April 27, 1937

Haggard, H. W. (1937). *Staying young beyond your years*. New York: Funk & Wagnalls.

Chinese Translation: 青春保持法/*Qing chun bao chi fa* (M. J. Liang Trans.). Shanghai:

Guang Xie Shu Ju (1940).
