

**Kristen Labazzo**  
**Rutgers University – Department of Biomedical Engineering**

**Kristen S. Labazzo, PhD, MBA** is an assistant professor of professional practice and the undergraduate program director in the Department of Biomedical Engineering at Rutgers University. She has a doctorate in biomedical engineering from Rutgers University, an executive MBA from the New Jersey Institute of Technology, and a BA in chemistry from Caldwell University. Dr. Labazzo brings 15 years of experience in biomaterials, tissue engineering, and stem cell biology to academia, ten of which were in industry. As an educator, Dr. Labazzo has developed new industrial courses, a co-op program, and leads patient-centric research projects in collaboration with organizations for the disabled. She was the 2019 and 2021 Engineering Governing Council Professor of the Year in biomedical engineering, the recipient of the 2021 Provost's Award for Excellence in Teaching Innovations, and has been awarded multiple grants towards her efforts on helping the disabled and developing experiential learning opportunities for undergraduates. She was also recently appointed to be the chair of the Matheny School Board.
