

Rutgers University Offshore Wind Energy Symposium

The background of the slide is a photograph of two offshore wind turbines in the ocean. The sky is filled with soft, white clouds, and the water is a deep blue with gentle ripples. One turbine is in the foreground, and another is visible in the distance to the left.

NJ-EDA Wind Institute Funding University Initiatives Program

PI – Peggy Brennan-Tonetta, NJAES

Co-PI – Wade Trappe, SOE

Co-PI – Josh Kohut, SEBS DMCS

Goal: Build long-term, industry valued expertise and support offshore wind research and learning, develop wind-relevant curriculum, and create partnerships to support pathways to employment in the offshore wind industry.

1. Offshore Wind Symposium

2. **Educational Initiatives for a Resilient Off-Shore Wind Economy** – Develop and deliver modular curricula across various technical, business, environmental and policy topics related to offshore wind

3. **Community Events and Shared Learning** – Engage and connect the offshore wind energy ecosystem with a goal to build pathways between Rutgers University, communities and the broader public and private sectors.
