

Project & Portfolio Management Community of Practice

Share practical knowledge and promote learning from each other

We want to provide an inclusive and collaborative environment for PM practitioners to **share best practices, methodologies, and expertise**. This group will seek collective advancement to achieve greater success in IT projects and balancing of IT project portfolios.

A platform to support each other through conversations and better stay connected with **tried and tested** information from your peers, at your fingertips.

Benefits

- Leverage existing knowledge and work product
 - Acquire new knowledge
 - Stimulate innovation
 - Offer enhanced solutions
- Personal and professional growth
 - Mentoring and training
