

Your saliva can help fight cancer

Be part of the research

Help scientists understand how genes affect breast cancer risk — even if you've never had cancer.

The more people who participate, the faster we can crack the code.

Anyone 18+ living in the U.S. can participate—
and receive a FREE genetic ancestry report!

1

Scan this QR code or visit
bcstudy.org

2

Complete an online form about your health history.

3

Return your saliva sample using the provided kit.
