

Rutgers STARs Program

A PAID, HYBRID OPPORTUNITY FOR RU STUDENTS THIS SUMMER

Eligibility

Students must be

- based on the Rutgers Newark or New Brunswick campus
- undergraduate or graduate students who will continue at either institution in Fall 2026
- enrolled in degree programs in the earth & environmental science related disciplines, including but not limited to Environmental Science, Ecology & Evolution, Ocean Science, Earth & Planetary Sciences, Atmospheric Sciences, Microbiology, Geography, and more
- committed to participating for 2-4 hours per week over an 8-week period

We encourage applications from students from groups that are traditionally underrepresented in STEM.

Questions?

Ashaki Rouff, ashaki.rouff@rutgers.edu (Newark)

Carrie Ferraro, ferraro@sas.rutgers.edu (New Brunswick)

Luis Rivera, luis@psychology.rutgers.edu (Newark)

Rutgers STARs collaborate in undergraduate-graduate teams to share strategies for persistence, resilience and academic success, and explore career pathways and professional opportunities in multiple scientific disciplines focused on studying the earth.

STARs meet for 2-4 hours per week from June 1st to July 24th, 2026 and receive a \$3,000 stipend.

Apply to participate by Fri., March 6th
